

COUNCIL WILL DEBATE QUESTION

Ad. Mitchell Loves Revision Street Railway Fares

Advocates Four Tickets For 25 Cents, Retaining Basis 20 To The Dollar

Ald. P. J. Mitchell gave notice of motion at a special meeting of the city council Monday that the street railway fare structure be four tickets for 25 cents and that the 20 for \$1 be retained. The motion will be debated at a future meeting of the council.

Gen. MacArthur Pledges To Get News For Press

Continued from Page One

yourself of the facts. If you do you will find most criticism disparaging.

"When you start to fear down public confidence in military leaders you practically destroy an army."

"I am always glad to give you my full knowledge or opinion on any subject but as background only."

The supreme commander of the United Nations in the southwest Pacific declared there has been "nothing more adverse to the progress of this war, which is real, than the application of the machinery of the press to the public opinion."

"The position occupied by public opinion is the most important factor in the war."

"The old days called for a censorship embodying a method of control in which the emphasis was placed upon prevention of the leakage of information of military value."

"The censorship of these days has gone infinitely beyond the leakage of information of military value."

"There is almost a voluntary censorship now. No one knows the people know that anything printed has been indirectly or unwittingly helped the enemy. It will demand that such aid be stopped."

"The old days called for a censorship embodying a method of control in which the emphasis was placed upon prevention of the leakage of information of military value."

This motion came after City Commissioner A. A. Campbell had indicated that the reserves being set aside in the system were insufficient to take care of the rehabilitation program outlined four years ago by a transportation expert. This information was given counsel during the consideration of the street railway estimates.

Prior to making his motion Ald Mitchell said there was no reason why the street railway should be operated at a loss. The estimate this year budgeted for a deficit on operation of \$30,752. The deficit in 1941 was \$64,824. If Ald Mitchell's motion is adopted it will mean an estimated increase of \$30,000 in revenue.

REGULATIONS NOT HURT

He said the introduction of the four for 25 cents rate would not affect the regulations of the system. The 20 for \$1 would be available to them, and the five cent fare would be maintained to them under the system. The four for 25 cents rate would be the usual use of the system, he said.

City Commissioner John Hodgson said he had favored the four tickets for 25 cents to the casual user, but would not recommend any change in the 10 tickets for \$1 rate. Mr. Hodgson said he had endeavored to have the four for a quarter rate adopted by council on numerous occasions but had not been successful.

Rapid progress was made with the consideration of department estimates, and it is now certain that the consideration of the budget will be completed at the next special meeting to be held on Wednesday afternoon and evening.

The estimates of the license department, the city garage, purchasing agents, land department, special relief department, city market, city employment bureau, electric light, street railway and telephone departments were tentatively approved.

NEW PHONES NEEDED

During the discussion on the telephone department estimates superintendent Robert Christie intimated that he anticipated that between 600 and 800 new subscribers would be added to the system during the year. This estimate, he added, was conditional on the department being able to get the necessary supplies to make the connections. Reduction in the amount of wire to be used in making connections would affect the number of installations that could be made, he added.

Utility estimates still to be considered are the power plant and the waterworks department. Allied with the utilities is the city's bus and streetcar system. These estimates will be considered at Wednesday's meeting.

Estimates for the license department amounting to \$9,463 were passed in short order. Revenue from general license, dog and bicycle tax was estimated at \$72,000 compared with \$73,292 actually collected last year.

POSSIBLE FUSION

Ald Guy Patterson asked if the commissioners were giving consideration to the amalgamation of this department with the assessor's department. Commissioner Hodgson said a report would be submitted later on this fusion, and the estimates that license inspector Thomas McMillan had been granted an extension in the service until December 31.

Land department expenditures were approved at \$12,218, of which \$15,188 was for salaries. Other expenditures included: postage, printing and stationery, \$1,000; transportation, \$600; advertising, \$100 and telephone, \$150.

Estimated revenue in the department was \$126,000, of which \$15,000 will come from commercial land sales and rents, and \$110,000 from rental of city property.

Answering a question by an Aldman, John Patterson, department superintendent, said the greatest fear was exercised to see that no property was sold to money alone. He said the department had 479 tenants on its list at the end of December, 1941, most of them houses.

ON SOLID BASIS

During a discussion on real estate value, Commissioner Hodgson said he had a strong conviction that the solid growth of recent years has put Edmonton on a solid basis as far as building is concerned.

Estimated expenditures for the city garage of \$26,635 were passed after Alderman had asked a few questions concerning the depreciation on Diesel buses. A. W. Albright, superintendent, said depreciation on these buses was normal. Expenditure in 1941 was \$26,773.

MUCH GAS NEEDED

Answering Ald J. H. Ogilvie's question on the gasoline consumption in 1939 and 1940 Mr. Albright said that in the former year 39 cars consumed 34,000 gallons, and in 1940 81 cars consumed 50,000 gallons, in 1941 95 cars consumed 61,000 gallons. Increased work developing on civil staffs through extension of service was given as the reason for the increase in gasoline consumption.

"Look, Sarge—a couple of the artillery boys pinned this medal on me!"

When special relief department estimates were being considered, Ald Guy Patterson asked if anything "similar" to a cost-of-living bonus was being paid to relief recipients. Mayor John W. Reilly said that provision had been made to retain the standard of relief that existed prior to the war.

RELIEF COSTS

Administration costs in this department are estimated at \$20,797. Groceries and milk will cost approximately \$35,935; light, water and coal oil, \$13,550; rents, \$12,500; fuel, \$6,300; clothing and bedding, \$7,800; shoe repairs, \$600; medical, \$410.

\$7,800 expenditure in the department were estimated at \$12,358, of which the senior government, "bare" is \$75,240, to leave a net cost to the city of \$40,000. Last year net relief costs were \$60,000.

H. P. McKee, department superintendent, stated he expected further staff reduction this year. Twenty-eight men were laid off in the department last year, leaving 11 now on the staff.

ESTIMATED REVENUE

Estimated revenue from the electric light department was set at \$1,320,000, and expenditures at \$1,400,000. Last year actual revenue was \$1,448,937, and expenditures \$1,517,357.

The department anticipates a surplus of \$127,000 compared with \$131,000 last year.

Discussing capital expenditures in electric light and power department, Ald Ogilvie suggested that \$43,336 be spent on a duct line from the power house to Jasper Avenue.

It was suggested that the duct be placed in reserve and used subsequent to the war as a rehabilitation project.

Ald Sidney Parsons said there were 1,500 men now in Edmonton seeking work. The construction of these underground ducts should be done now to give them employment.

The underground ducts were being constructed to eliminate the overhead line from the power house to Jasper Avenue, William Barnham, plant superintendent, told council.

MUST BE DONE SOON

The advantage of doing this work this year, said Mr. Barnham, was that the ducts would be ready as soon as material was available. He said that present poles would not last very much longer, and he considered this work should not be delayed very long.

The expenditure of \$43,336 was passed, the commissioners being instructed to use discretion whether the work would be proceeded with this year or left until after the war.

Other capital estimates for this department were: Highway and urban lighting, \$6,000; meters, \$5,000, and transformers, \$2,000.

Total current expenditures passed for the street railway department was \$20,262, and revenue \$26,750, leaving an estimated deficit of \$6,488 on the system's operations.

The Commissioner A. Campbell intimated that the reserve set aside for street railway repairs was insufficient. He referred to the report of an expert made four years ago in which it was stated that \$120,000 would be required for rehabilitation of the system. The reserve being set aside did not provide for this, he said.

GREY RESERVE NOW

He said that at this period of patronage expansion the reserves should be set aside, so that the rehabilitation program can be proceeded with.

He then referred to Ald Mitchell that the four tickets for 25 cents be introduced on the system was rejected by the Mayor. Fry who said such motion should come before council by way of notice of motion.

He then referred to the revenue figures of the department being increased by \$15,000. This motion was passed, and the estimates approved as submitted by the commissioners.

Chief expenditures in the system are: \$61,763 for maintenance, operation and power; capital charges, \$77,616; reserves, \$40,000; bus purchase reserve, \$8,000 and taxes \$81,000. Chief revenue is from fares, \$1,448,937, and miscellaneous, \$13,758.

Out of renewal reserve account totaling \$150,000, Chief items of the expenditure were: \$31,000 for three Leyland motor coaches, \$50,000 for

U.K. Sets Up War Production Staff

representatives of the production ministries.

Arrangements are underway, he said, for a study of war production and Empire requirements.

I shall ask the Dominion government for the necessary liaison officers so that the study will be comprehensive," Lytton said.

He announced that Lord Beaverbrook, former supply minister, had arrived in the United States to advise on production matters.

DOVETAIL PLAN

He said the object of the war production staff was to "ensure that production is closely and continuously related to strategic requirements."

The most important task, he said, was to divert Britain's supply of raw materials and manufacture of munitions into the program of the United States.

"It shall keep in continuous touch with him so that I may derive all benefits from his advice upon the completion of an international organization," he said.

new buses or truck rehabilitation, \$20,000 for street car rehabilitation and \$8,000 for wheels, axles and other equipment.

Revenue anticipated in the Telephone department was set at \$72,000, with expenditures of \$56,000, leaving a surplus of \$16,000.

Telephone repairs were expected to bring in \$10,118 this year, private exchanges, \$81,000; cable mileage, \$4,000, and toll trunks, \$2,700.

Maintenance of the system is estimated to cost \$130,755; operation, \$10,045 and other charges, \$28,700.

Equipment purchases out of renewal reserve account amounting to \$22,714 were approved. These purchases include \$158,714 for live extension equipment for the four exchanges; \$54,000 for underground cables, and \$40,000 for subscribers' station equipment.

TWO ARE SHOT

French Sailors Risking Death To Break From Toils Of Vichy Clique

VICHY, March 24.—(AP)—Two French sailors who wounded the captain of the freighter Gabriel Guisthau recently in an unsuccessful plot to deliver the ship to the anti-Axis nations were executed by a firing squad at Oran Monday after Chief of State Petain refused their clemency plea.

This was the second attempt of the kind this year, and the story as told here was:

The blockade-running freighter, part of a convoy guarded by French warships, was slipping through the Straits of Gibraltar in the dead of night when the armed seamen approached the captain on the bridge, ordered him to break away from the convoy, and put into Gibraltar.

But the captain managed to fire the bridge, wounded slightly by one of the four shots fired at him.

WARSHIP PULLS UP

While the captain was getting in touch with the engine room in an appeal for help, a French warship whose crew had heard the shots, pulled alongside, boarded the freighter and put down the mutiny.

The captain involved in the plot was sentenced by an Oran military court March 13 to 10 years at hard labor.

On Jan. 21 the navy ministry announced that four officers of another French blockade runner, the

Liberal Chiefs Seek "Yes" Votes

OTTAWA, March 24.—(CP)—House of Commons leaders were completing plans today for speaking engagements during the Easter recess starting March 27 when they are expected to speak in support of a "yes" vote in the manpower plebiscite April 27. The session resumes April 30.

Prime Minister Mackenzie King told the house recently that he plans a radio broadcast in connection with the plebiscite and that he understood some of his cabinet colleagues would also speak over the air.

Mr. King said he hoped "many more" would be found to make clear to the electorate the government's desire to see an affirmative answer was given the plebiscite question.

Looking Over  
JACK KELLY

EDMONTONIANS may have gotten short on their hockey this past winter and they will probably go short on gasoline and tires this summer, but there will be no shortage of baseball land at Renfrew Park this season.

Last night the senior and junior baseball leagues held organization meetings and both circuits are abuzzing with enthusiasm. Both are planning an early start and both feel that with motorist restrictions and daylight saving time the season is set for one of the best seasons in years.

The City Junior League is definitely set with the same four clubs as last year—Canadians, Maple Leafs, Singers' Club and the Duncans. All four managers reported interest very high among the boys around town and anticipate no trouble in filling their rosters.

Last night's meeting of the Junior League cleared away a number of details connected with the opening of the season and set the stage for a flying start. Plans are also under way for each junior club to sponsor one feeder team in a juvenile league.

The senior league at present has three certain starters—Arrows, Dodgers and a team from the airport repair shop. Negotiations are under way for a fourth team from the R.C.A.P. Manning Depot.

With this boom in baseball interest here, it seems that the time has arrived when the city will have to tackle the problem of practice fields. Fortunately this will not involve much in the way of expense. Replacing of wire fencing backyards, a bit of leveling with a road grader and some grass cutting will put at least two existing fields in fine shape for practice.

With this boom in baseball interest here, it seems that the time has arrived when the city will have to tackle the problem of practice fields. Fortunately this will not involve much in the way of expense. Replacing of wire fencing backyards, a bit of leveling with a road grader and some grass cutting will put at least two existing fields in fine shape for practice.

The senior league at present has three certain starters—Arrows, Dodgers and a team from the airport repair shop. Negotiations are under way for a fourth team from the R.C.A.P. Manning Depot.

EXPLANATION OF TODAY'S CARTOON  
THE NAME OF CHILE: There are various versions of how Chile obtained its name. Some say that the word is Indian and means "beautiful". Others say that the name means "frigid" or "snowy". But the predominating version is that the country was named for the call of the Trile Bird (Agelaius Thillius), the call of which sounding like "Taile, Taile," gave the country its name.

Brown Bomber Still Lightning  
Joe Says He'll Stop Abe  
"As Soon as I Ketch Him"

FORT DIX, N.J., March 24—(AP)—If Joe Louis has slowed down, as some of the ballyhoos would have you believe, they should have let him work out in a dark corner. Monday, where no prying eyes could get a peek.

Because the Bomber, beginning his last three days of work for his army emergency relief fund fight with Abe Simon in Madison Square Garden Friday night, was about as slow as a flying-fortress—and just as deadly.

He dashed out an assortment of blows in a four-round work-out with George Rick, Eddie Blunt and George Nicholson and was so much doing it that you felt kind of sorry for Abe.

The main attraction of the 125th special service unit put on his army emergency relief fund fight with Abe Simon in Madison Square Garden Friday night, was about as slow as a flying-fortress—and just as deadly.

Tonight's Game To Decide Title

Barely managing to hold off a determined attack in the last few minutes, Edmonton Normal School squeaked through with a 43-42 win over Cardston in the first game for the Alberta men's intermediate basketball title at the new Normal gym on Monday night.

As a result the Normalites will carry a one-point lead into the second game of the total-point series which is being played tonight on the same floor and it would appear that the provincial championship is hanging by the proverbial slender thread.

The northern division likelihood of a rout of more goals, shooting, moved into the lead early in the first quarter and at half time had piled up a 10-0 lead. The Kirkpatrick coached quintet was checking very closely, leaving very few good openings for the Cardston boys.

In the second half, however, the southern champions speeded up and worked the ball around for set shots, making them from close in. They added 20 points in this half while the Normal squad collected only 10.

On the Cardston team Duce and Cardwell were particularly good defensively and on the attack with seven baskets, top scorer for his team. Cardwell made 13 points.

Bill Hansen was a standout both defensively and on the attack. He was high points-maker for the game, with a total of 16.

Arnon Card, the one-armed gent who has never let his handicap interfere with his athletic activities, was actually the fastest man on the floor. He scored 10 points, the same as Kirk Kirkpatrick.

Jim Menzies came through for Cardston with five very hard-earned points in the last few minutes, in addition to playing a good defensive game.

Cardston: Cardwell 12, Duce 14, Leishman, Lewis 2, Shaw 8, Sloan 2, Don Sted 2, Del Steed, Quilton, Total 42.

Normal: McIntosh 2, Sawdow, Kirkpatrick 16, Hansen 16, Card 10, Menzies 5, Korshinsky, Total 43.

Officials: Ed. Tumen, T. McClocklin.

Starlets Defeat Victoria Hi Girls By Score 32-25

Starlets defeated Victoria Hi girls 32-25 in last night's basketball game at McDougall gym, gaining most of their margin in the first quarter.

Clare Hollingworth's squad opened Vile 10-5 in the opening quarter, while the second and third were both even, 8-8 and 10-10.

Starlets also picked up a pair more than their opponents in the final session, the count being 4-0.

In shooting accuracy Vile registered 11 out of 48 shots, while Starlets scored on 14 out of 48. A total of 31 fouls were called, Vile losing two players.

LINEUPS  
Victoria—Shirley Thompson 6, Eleanor Ryan, Ellen Keil 6, Nellie McLean, Muriel Duke 7, Denise Kallaway, Vera Hole 8, Total 28.

Starlets—Connie Strachan 10, Allen Hudson, Ellen Crouch 1, Winnie Tull, May Prince 3, Dorothy Bolander 9, Eleanor Goinick 2, Colia Pitt, Norma Jackson 1, Barbara Hay 6.

Officials—Joe G. Young, Earl Wood, Bob Allen, Watson.

Callura Wins  
PROVIDENCE, R.I., March 24—(CP)—Jackie Callura of Hamilton, Ont., Canadian featherweight champion, scored a third-round technical knockout over Ted Christie of New York in a scheduled 10-round bout here Monday night, Callura weighed 128, Christie 127.

More tobacco is sold at Wilcox, N.C., than at any other market.

NEW CREAM STOPS UNDER-ARM ODOR

—and prevents perspiration stains

Already the LARGEST SELLER to Prevent Under-arm Odor

1. A lotter way to prevent under-arm odor and perspiration stains.

2. Save shirts from rot caused by under-arm perspiration.

3. Takes but half a minute to use.

4. A gressless cream which disappears at once.

5. Avoid the sweat which the Approval Seal of the American Institute of Laundering is often harmful to fabric.

Water... is Whisky's Severest Critic.

Plain water is plain-spoken when it is mixed with whisky. Only the smoothest, kindest whiskies dare submit themselves to the challenge of the water test.

Every drop of Seagram's is distilled, aged and blended to meet this one all-searching test. Seagram Whiskies demand nothing more than plain or sparkling water to give you a truly delightful drink.

At Least Three-Team Loop Certain  
Senior Baseball Assured For Edmonton This Season  
With three definite starters for the city league already assured and the chances excellent for a fourth entry, that senior baseball for Edmonton this season is now a certainty was the unanimous opinion of those attending the preliminary meeting held in Vic Horner's office Monday night.  
Arrows, Dodgers and a team from MacKenzie Aircraft Repairs are all ready to go, making at least a three-club league, even though the fourth is unable to get organized in time.  
The formal organization meeting will be held on April 14, when the new loop will be officially launched. This meeting has also been called for Vic Horner's office and all interested are cordially invited to attend.  
Last year, the Central Alberta Baseball League operated with Arrows, Dodgers and Ponks as its clubs, and ended in a fiasco.

## MANY POINTS FIGURE IN CONJECTURE

## 'Tis Spring: World Wonders Where Hitler To Strike

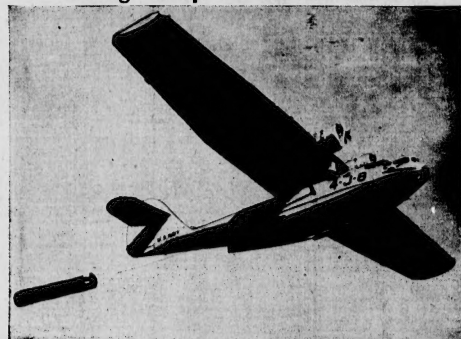

This official U.S. Navy photo, just released, shows men of the new American Expeditionary Force conditioning an anti-aircraft battery on board ship en route to Australia, where U.S. land and air forces "in considerable numbers" recently arrived.

## One Of Tornadoes' Targets

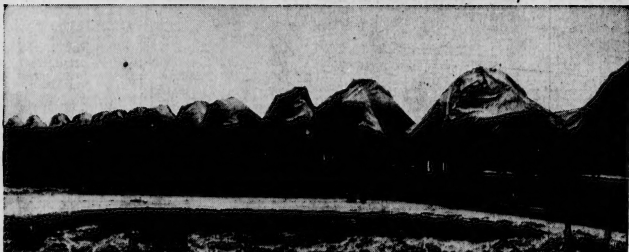

Leaving behind it a scene resembling a battlefield, one of a series of tornadoes smashed this warehouse in Champaign, Ill., as the storms whirled over a 600-mile route through six southern and mid-western states. One man died in the wreckage pictured above. More than 140 persons were killed and 900 injured by the storms. Millions of dollars in property damage was reported.

## "Setting 'Em Up" For Ack-Ack Gunners

To your list of jobs unsuitable for timid souls add that of manning a target plane. That is a plane which tows a target so that ground anti-aircraft gunners may practice on a flying target. Above you see a target plane. The plane is a navy patrol bomber, shown streaming the target which is towed on a long line.

## It's A Tank Town . . . But It Isn't Circus Day

Looks like 5 o'clock in the morning the day the circus pulled into the old home town, but it's serious business as covered tanks leave the Chrysler arsenal at Detroit.

## Board Official

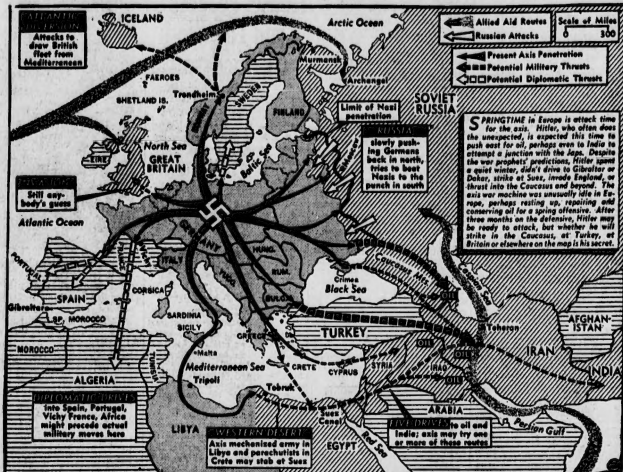

Walter P. Zeller, of Montreal, who has been appointed assistant to the chairman of the Wartime Prices and Trade Board. Mr. Zeller who operates a chain of variety stores and has been acting as deputy to the co-ordinator in the prices administration, has now taken up his new duties. He will be attached to the head office in Ottawa. He serves without remuneration or expenses.

## Lost In Crash

Maj. Gen. Lancelot Denys, above, head of the British military mission in China, died with 13 others—five of them Americans—in the crash of a transport plane near Kunming, China.

Allied counter-offensives, like the R.A.F. raids on Germany and Italy, British fleet action in the Mediterranean and attacks in Russia and Libya, may keep the Axis from embarking on the potential spring campaigns shown on map.

## Enlightening!

Lillian Moore shows a television audience how to wash swimming pool chemicals from her bathing cap, thus lengthening its life and conserving defence materials.

## Anti-Axis Riot In Rio

Enraged Brazilians, inflamed over the sinking of their merchant ships by the Axis, are shown above, in Rio de Janeiro smashing their way into a German owned store as the country marked time for a possible declaration of war. A decree has been promulgated for the confiscation of a substantial portion of Axis funds in Brazilian banks.

White-clad Russian troops, pursuing the retreating Germans, are shown passing some abandoned motorized equipment in the Staraya sector of the front northwest of Moscow, where several Nazi divisions are threatened with entrapment.

## Red "Hail" And Snow On Soviet Front

In a bleak, white setting "somewhere on the Russian front," a Soviet machine gun crew is ready to pour a hail of bullets into the enemy. Better-trained and equipped to cope with the freezing weather than the Germans, the Reds have rolled the Nazis back on all fronts.

## They'll Make It Stick If Invasion Comes

Aussies string barbed wire along their beaches as the hordes of Nippon draw near for their invasion attempt against American bolstered defenders.

## Edmonton Regt. Is Calling For 400 Recruits

Continued from Page Nine

Now is the time to join the regiment. Col. Hale said Tuesday, "We are just starting our new training schedules and men who want to get in on the ground floor should enlist immediately. There will be promotions for men who show initiative and ability, every man will be taught how to handle a rifle to use the bayonet, and the Bren and Lewis guns, and the trench mortar and to learn discipline through elementary drill."

"There will be exercises in field tactics which will give the new soldiers an insight into the mechanics of modern war; there will be manoeuvres with some of the latest army equipment which will not only be interesting to recruit youths but men but will stretch their legs, take the kinks out of their muscles, bring them out into the open air and serve as a real health tonic."

"There is an obligation on every person who can carry a rifle to train now. The course of this war has shown only too clearly that we must be prepared to defend Canada and our homes. That is what the reserve army is for to give men a chance two nights a week and some weekends to learn to be soldiers."

"Many men, for one reason or another, cannot join the active reserve units at the present time; but they can join the reserve army units. The Edmonton Regiment has been included in the special brigade for the defence of Alberta, and the Edmonton Regiment is prepared to accept 400 more men now to defend Alberta."

Enlist in the regiment now and bring your friends with you."

### PROGRESSIVE TRAINING

Individual and progressive training is being stressed in the reserve army under the new plans. That is to say, men will be kept in the same branch of training until they feel monotonous, as soon as they feel monotonous they will be transferred to a branch in which they will be trained until they feel monotonous, as a fully trained soldier. This has been adopted to keep the men on their toes and to give the price of variety to their reserve army life."

### THOSE ELIGIBLE

Those eligible for enlistment in the Edmonton Regiment are youths between 17 and 19 years, "A," "B" or "C" medical categories; men between 19 and 30 years, "A," "B" or "C" medical categories, and those between 19 and 30 years, "C" category only.

In addition, the Edmonton Regiment has a Cadet Corps open to boys between the ages of 14 and 17 years. The minimum age for cadets is 14 years, but for cadets recruited for the time being has been set at 15 years and 6 months.

All those joining the reserve army will be issued with the same equipment as the active army, including battle dress and web equipment.

Men, including battle dress and web equipment, will be sent to the regiment and behind the first line of the Edmonton Regiment (A), C.A. or active service companies, and the command of Lt. Col. E. B. Wilson. But in the reorganized militia, the Edmonton Regiment was designated as the prearranging unit of the 48th Infantry Division, which is taken into itself the militia of the Edmonton Regiment.

Thus, when the present war broke out, the Edmonton Regiment was ready for duty. It was the great 48th Battalion that brought home honor and glory to the city's name.

### GRIEBACH IN COMMAND

The 48th Battalion was mobilized here in December, 1914. The then Lt. Col. W. A. Griebach, who had gone overseas in 1914 as a major, second in command of the 19th Alberta Regiment, had been selected to return here to raise the 48th.

The response was immediate and complete. Within eight days, the battalion had raised more than 400 men, including the famous "Reddy" company from the Peace River area.

## Congregation Honors Pastor At Highlands

Honoring Rev. R. D. Davies, minister of Highlands United Church for the past year and a half, a farewell reception was held in the church hall on Sunday evening, following the service.

Rev. Mr. Davies has left the city to return here in the spring of 1919. The congregation, the Highlands United Church, for the past year and a half, a farewell reception was held in the church hall on Sunday evening, following the service.

## Victims Fail To Remember Data About Mishap

Lt. Cpl. Kenneth Duggan and Mrs. Mabel Duggan, victims of a motor car accident on Whyte avenue last November, told a supreme court jury Monday that they could not remember anything of the accident which sent both of them to hospital suffering from serious injuries.

"The last I remember," testified Mrs. Duggan, "was walking across the Mill Creek bridge. I have no recollection of the accident." Her husband gave similar evidence.

TELL OF ACTIVITIES

Monday afternoon companions of the accused W. T. Alexander, former civic employee, testified as to his activities on the evening of the accident. They told of driving to the north side of having a drink or beer in a beer parlor. Only one drink was taken, and the party returned to the south side where further glasses of beer was consumed.

Following this Alexander left the party and was seen again, by W. Smith testified, until about 9 p.m., when he met a woman on the south side hotel. "Alexander offered to drive me home," he stated, "and I accepted." He said that Alexander at that time was sober.

The accident, according to police evidence, must have taken place shortly after Alexander left the Smith home.

STRUGGLES TO FEET

Alex. MacDonald, B.C. Duggan, told of seeing Lt. Cpl. Duggan struggling to his feet in the back between 100 and 101 street on Whyte avenue. He testified that he asked him what had happened, the witness stated. The injured man appeared dazed and he was alright when asked if he wanted to go to a hospital and clean up. On the way to the hospital, the witness said, he had been in an accident. The injured man replied that he did not know, he must have fallen from a motor car.

Asked if he had been on a party the injured man answered, "Oh, No."

On behalf of the congregation, J. Bond made a presentation to the minister of a military wrist watch, and representing the Young People, Miss B. Perry also made a presentation of a military wrist watch.

BOUQUET TO MRS. DAVIES

A bouquet of flowers was given to Mrs. Davies by Miss Elizabeth Waterman on behalf of the Women's association.

Interim moderator, Rev. Dr. E. T. Scragg spoke in tribute of the work of Rev. Mr. Davies. H. G. Wills acted as chairman, and a short musical program was presented by Miss Hendra, soloist, and Donna Sandrock, violinist, as well as by the senior choir.

A social hour followed the presentation. About 450 persons attended.

Woman Requests Sentence in "Pen"

Pleading guilty to four charges arising out of an active week end, Florence Chaffin, asked that she be sent to a penitentiary where she could learn a trade that would keep her out of difficulties.

She was arrested on a charge of larceny and brought to the police barracks. An all-night fast in the cell resulted in a charge of attempted suicide.

By this time it was revealed that she did not have her possession, her national registration card, and thus followed the third charge.

She was charged with theft after James Thompson reported to police that she had allegedly stolen \$40 from him.

B. P. Jackson, lawyer for the accused, asked that the court sentence her to the penitentiary in preference to a term in jail. He stated that she had requested this on the grounds that many previous visits to the jail only resulted in her getting more deeply involved "with the same gang" after she got out.

He explained that it was her desire to spend some time in the "pen" in the hopes that she would be able to learn some trade and return to follow up some useful occupation.

Police Magistrate A. I. Millar, K.C., promised to consider the case and adjourned the utterance of sentence till the afternoon.

Former City Man Dies At Coast

Word was received in Edmonton Tuesday of the death at Vancouver on Thursday last of Joseph W. Turner, former superintendent of city waterworks. He was buried at Victoria, Saturday.

The late Mr. Turner resigned from the civic service in 1930 and went to live at Victoria. The move was made because of his wife's health. She died about six months ago.

According to advice received here Mr. Turner has been in ill-health for some considerable time.

—By Rick Elmes

## BEATIN' THE BLITZ

The 48th Battalion was mobilized here in December, 1914. The then Lt. Col. W. A. Griebach, who had gone overseas in 1914 as a major, second in command of the 19th Alberta Regiment, had been selected to return here to raise the 48th.

The response was immediate and complete. Within eight days, the battalion had raised more than 400 men, including the famous "Reddy" company from the Peace River area.
